Instructions for Cutting Your Hair for a Halo Wig

1. Wash & dry your hair. Please only send dry, squeaky-clean hair.
2. Gather up the hair into small sections and create several ponies using small rubber bands. Make sure the bands are tight enough around the hair to keep the hair together after cutting.
3. Measure the length of the ponytails from the elastic band to the tips, making sure it is **at least 9 inches** long. There is no maximum length requirement.
4. Cut the hair just above the elastic band so that the elastic band remains on the ponytail after cutting and keeps cut hair together. Do not wash or style the ponytails in any way after they have been cut off.
5. Place the ponytails, kept intact with the elastic bands, in a zipper-lock bag and seal tightly. Please ensure that the ponytails are completely dry before sending.
6. Place the plastic bag with the ponytails in a padded or plastic envelope
